

## **ISHITA PANT**

Ishita joined the EIRA project in 2017. She is a member of the core team that sets the scope and methodology of EIRA. Ishita bears the primary responsibility of managing the project schedule and ensuring quality control. She is the editor of the report and conducts the final check on the data validation and content of the country profiles. Since 2019, she is also responsible for the development of the EIRA website. She is the lead author of the profiles for Afghanistan, Bangladesh, Bosnia and Herzegovina, Jordan, Kenya, Morocco, Nigeria, Palestine, Rwanda, Slovakia, Uganda and Ukraine. In 2018, she also worked on the profiles of Croatia, Chad and Hungary. Ishita authored the Extended Country Profile of Nigeria in 2018 and 2019.

Ishita is an Investment Coordinator at the International Energy Charter. She is a common law qualified lawyer and holds an LLM in Energy and Natural Resources Law from the Queen Mary University of London. Prior to joining the International Energy Charter, she worked as an in-house attorney for the France-based multinational company, Air Liquide. Her areas of specialisation are energy, projects and infrastructure, and regulated industries.

## **ANNA PITARAKI**

Anna joined the EIRA project in 2017. She contributed to the revision of the EIRA methodology in 2018. She is the lead author of the country profiles for Benin, Burkina Faso, Eswatini, Kazakhstan, Kyrgyzstan, Moldova, Montenegro, Romania, Senegal, and Viet Nam. In 2018, she worked on the profiles of Latvia, Norway, Kenya, and the Belarus and Armenia extended profiles. Anna is responsible for the EIRA launch event of 2019. She has also collaborated on the EU4Energy Programme in 2017 and 2019, co-authoring the 2017 extended profiles for Belarus and Armenia.

Anna is an Investment Coordinator at the International Energy Charter. She is a civil law qualified lawyer and holds a Ph.D in International Economic Law from the European University Institute where she was involved in research projects on the WTO and EU trade law. Prior to joining the International Energy Charter, she was a member of the arbitration practice of a leading international firm in London. Her area of expertise are trade and investor-State disputes in the energy sector.

## **DANAI OIKONOMAKOU**

Danai joined the EIRA project in 2018. She is the lead author of the country profiles for Albania, Croatia, Czech Republic, The Gambia, Greece, Panama and Uzbekistan. Danai has created the EIRA database and is responsible for processing the scores for all countries into electronic formats. She leads the work on the design and visual presentation of the publication. Since 2019, she is also responsible for the development of the EIRA website and handles the contractual arrangements and logistics of the project, including liaising with the publication designers and the website developers.

Danai is an Investment Coordinator at the International Energy Charter. She holds a five year degree in Civil Engineering and a four year degree in civil law. Prior to joining the International Energy Charter, she worked for over six years as a civil engineer with reputed construction engineering and project management firms. Her areas of expertise are energy and utilities projects.

## **DAVID KRAMER**

David joined the EIRA project in 2017. He coordinates the preparations of the Implementation Group meetings where discussions take place on the development of EIRA. He also liaises with individual countries, peer reviewers and industry. He is the lead author of the country profiles for Georgia, Liechtenstein, Mongolia and Belarus. In 2018, he also worked on the profiles of Afghanistan and Armenia.

David is Head of the Investment Unit of the Energy Charter Secretariat. He holds an MSc in Science and Policy from Utrecht University. Prior to joining the International Energy Charter, he spent 14 years at the Dutch Ministry of Economic Affairs holding various posts. He was the project leader of the Ministerial Conference on the adoption of the International Energy Charter in The Hague, which took place in May 2015. His area of expertise is international energy security.

## **EDWARD SAFARYAN**

Edward Safaryan joined the EIRA project in 2019. He provides support in the preparation of the Implementation Group meetings where discussions take place on the development of EIRA. He also liaises with the Energy Charter Industry Advisory Panel for gathering feedback on the report and its future development. He is the lead author of the country profile for Armenia and has also worked on the profile of Belarus. Edward acted as a liaison between the Energy Charter Secretariat and government entities as well as external parties in Armenia, Belarus and Uzbekistan. He is also responsible for the EIRA launch event of 2019.

Edward is an Investment Official at the Energy Charter Secretariat. He holds an MSc degree from the State University of Armenia and a Master's Degree in Environmental and Energy Policy from the University of Delaware. Prior to joining the International Energy Charter, he worked in various international organisations, including 7 years with the Organization for Security and Co-operation in Europe. His work had special focus on economic development and government strengthening programs in Armenia, Tajikistan and the US. His areas of expertise are energy and environmental policy, and project management.
