

AUTHORS

A decorative graphic on the left side of the page consists of numerous vertical lines of blue dots. These lines are arranged in a way that they appear to curve and fan out from the top left towards the bottom right, creating a sense of depth and movement. The density of the dots increases as they move downwards and to the right.

ISHITA PANT

Ishita joined the EIRA project in 2017 and has been leading it since 2020. As the project manager, she supervises the data collection and verification process, the quality of research and analysis, the final content of the country profiles, and the editorial and layout aspects. She also oversees content upload on the EIRA website. Ishita has authored the country assessments of Colombia, Jordan, Nigeria, Palestine, Rwanda, Sierra Leone, The Gambia, Uganda and Yemen. Currently, she is developing the 2020 and 2021 Extended Country Profile of Nigeria and the 2021 Extended Country Profile of The Gambia – in collaboration with the ECOWAS Commission.

Ishita is an Investment Coordinator at the International Energy Charter. She is a common law qualified lawyer and holds an LL.M. degree in Energy and Natural Resources Law from the Queen Mary University of London. Before joining the International Energy Charter, she worked as an in-house counsel for the France-based company, Air Liquide. Her areas of expertise are energy, projects and infrastructure, and regulated industries.

ANNA PITARAKI

Anna joined the EIRA project in 2017. She has authored the country assessments of Benin, Burundi, Eswatini, Mali, Mauritania, Moldova, Montenegro, Panama, Senegal, and Viet Nam. Anna provides support in ensuring quality control by conducting fact-checks on the research and data in the report. She also helps the team in managing the EIRA website.

Anna is an Investment Coordinator at the International Energy Charter. She is a civil law qualified lawyer and holds a PhD in International Economic Law from the European University Institute, where she was involved in research projects on the WTO and EU trade law. Before joining the International Energy Charter, she was a member of the arbitration practice of a leading international firm in London. Her areas of expertise are trade, EU law, State aid, public procurement, and investor-State disputes in the energy sector.

ARDIT ÇAMI

Ardit joined the EIRA project in 2021. He has authored the country assessments of Afghanistan, Albania, Bangladesh, Bosnia and Herzegovina, Croatia, and Ukraine. Ardit provides support in ensuring quality control by conducting fact-checks on the research and data in the report. He manages the EIRA database and website content. He is also responsible for processing the scores of all countries into electronic formats.

Ardit is an Investment Coordinator at the International Energy Charter. He is a civil law qualified lawyer with an LL.M. in International Business Law from Coventry University. He is a Chevening Scholar and holds an LL.M. in Energy and Natural Resources from the Queen Mary University of London and an Executive Education (PON) Certificate from Harvard University. Before joining the International Energy Charter, he worked at the Albanian Energy Regulatory Entity. He served as an Advisor to the Minister of Infrastructure and Energy of Albania as part of the LEAD ALBANIA Programme. His areas of expertise are energy regulation and policy-making.

EDWARD SAFARYAN

Edward Safaryan joined the EIRA project in 2019. He has authored the country assessments of Armenia, Belarus, Guyana, Kazakhstan, Kyrgyzstan, Mongolia, South Sudan, Tajikistan and Uzbekistan. He provides support in preparing the International Energy Charter working group meetings where discussions take place on EIRA. He also liaises with the International Energy Charter Industry Advisory Panel to gather feedback on the content of EIRA.

Edward is an Investment Official at the Energy Charter Secretariat. He holds an MSc degree from the State Engineering University of Armenia and a Master's Degree in Environmental and Energy Policy from the University of Delaware. Before joining the International Energy Charter, he worked with various international organisations, including seven years at the Organization for Security and Co-operation in Europe. His work focussed on economic development, environmental protection and government strengthening programmes in Armenia, Tajikistan and the United States. His areas of expertise are energy and environmental policy, public finance, and project management.
