## Corrigendum II

Please note that despite our best efforts, errors have slipped into EIRA 2020. The text on page 31 has changed. It should be replaced by the following.

### Page 31

In paragraph 4, the words “The highest-scoring sub-indicator is *restrictions on FDI* at 90, followed by *transparency* and *respect for property rights* at 83.” are replaced with “The highest-scoring sub-indicator is *restrictions on FDI* at 90, followed by *respect for property rights* (83) and *transparency* (82).”

These lines and tables are correct on the EIRA website but not in the initial print run.
